

Captain Hook

Take one cup and one hook. Use the straight end of the hook – or a pair of scissors – to poke a slit into the bottom of your cup.

From the outside of the cup, push the straight end of the clothespin hook into your cup.

Reach into the cup and hold onto the straight end!

Down the Hatch!

It's time for some grub and ale!

Use the plastic knife to cut 8 legs on your hot dog.

Your grown up will put the hot dog into the boiling water. Use tongs to take out your octopus! (If anyone would rather grill a hot dog instead of creating an octopus you may use the grill.) Please keep the lil' mateys away from the hot surfaces!

Every pirate can take a bag of chips and a juice to go along with yer octopus.

Don't fergit dessert! Help yerself to 2 cookies each!

Save some for your pirate buddies!

DON'T FORGET TO CLEAN UP YOUR SPOT!

Shipshape Ships!

Cut out 2 ship shapes. Fold the bottoms and glue one bottom on top of another.

Cut the slits for the sails and then put 2 white paper sails into the slits!

Ahoy me Mateys!
