

# The Family of the Sun

Tune – Farmer in the Dell

The family of the sun, the family of the sun;  
There are 9 planets in the family of the sun

Mercury is hot and Mercury is small;  
Mercury has no atmosphere, it's just a rocky ball.

Venus has a cloud that hides the planet's glow;  
The air is cold the ground is hot it rotates very slow.

We call the earth our home, its oceans and its trees;  
We eat its food and breathe its air so no pollution please.

Mars is very red, it's also dry and cold;  
Someday you might visit Mars if you are really bold.

Great Jupiter is big, we've studied it a lot;  
We found out it has 16 moons, and a big red spot.

Saturn has 8 rings, we wondered what they were;  
Now we know they're icy rock, we just see a blur.

Uranus and Neptune, we don't know much about;  
Maybe you will study them and then we'll both find out.

Pluto's last in line, it's farthest from the sun;  
It's small and cold and icy too, to land there won't be fun.

The family of the sun, the family of the sun;  
There are 9 planets in the family of the sun.
