

Oliver the Octopus Recipe Cards

1. Use a plastic knife to cut the bottom half of a hot dog lengthwise into four equal parts, keeping the top half whole.

2. Ask an adult to use a sharp knife to again cut each of the four "legs" in half lengthwise.

3. Have an adult gently place the hot dog into the boiling water. Cover the pot with a lid. Let the hot dog cook until the ends are curled up tight.

4. Have an adult use tongs to remove the hot dog and place it on a plate. Use catsup to make a face for the "octopus."
